Note: It is very important that your unit is level in order for your doors and drawers to function properly. After moving your unit to its final location, you may need to adjust the floor levelers.

Remarque : Pour que les portes et les tiroirs fonctionnent correctement, il est très important que l'appareil soit bien horizontal. Une fois que l'appareil sera arrivé sur son emplacement définitif, vous aurez peut-être besoin d'ajuster les réglages des pieds.

Nota: Para las puertas y los cajones funcionan correctamente, es muy importante que la unidad esté nivelada. Una vez que la unidad llegue a su ubicación final, es posible que necesite ajustar la configuración de los pies.

CARE/ MAINTENANCE

Care and Maintenance

- Use a soft, clean cloth that will not scratch the surface when dusting.
- Use of furniture polish is not necessary. Should you choose to use polish, test first in an inconspicuous area.
- Using solvents of any kind on your furniture may damage the finish.
- Never use water to clean your furniture as it may cause damage to the finish.
- Always use coasters under beverage glasses and flowerpots.
- Liquid spills should be removed immediately, as it may damage the furniture. Use a soft, clean cloth and blot the spill gently. Avoid rubbing.

- Always use protective pads under hot dishes and plates. Heat can cause chemical changes that may create spotting within the furniture.

Further advice about wood furniture care

It is best to keep your furniture in a climate-controlled environment. Temperature and humidity changes can cause fading, warping, shrinking and splitting of wood. It is advised to keep furniture away from direct sunlight as sun may damage the finish. Proper care and cleaning at home will extend the life of your purchase. Following these important and helpful tips will enhance your furniture as it ages.

A touch- up pen has been provided to repair any small nicks or scratches that may occur during assembly or shipping.
We hope you enjoy your purchase for many years. Thank you for your purchase!

SOIN / ENTRETIEN

Soin / Entretien

- Lors de l'époussetage, utilisez un chiffon doux et propre qui n'égratigne pas la surface.
- Il n'est pas nécessaire d'utiliser du poli à meuble. Si vous décidiez d'utiliser du poli à meuble, veuillez d'abord en faire l'essai dans un endroit moins en évidence.
- L'utilisation de solvant de quelque sorte sur votre ameublement peut endommager le fini.
- Ne jamais utiliser d'eau pour nettoyer votre ameublement car cela peut endommager le fini.
- Utilisez toujours des dessous de verre sous les verres/tasses des breuvages et sous les pots à fleur.
- Tout déversement de liquide doit être enlevé immédiatement car cela peut endommager l'ameublement. Utilisez un chiffon doux et propre et éponger délicatement le déversement. Évitez de frotter.
- Utilisez toujours des tampons protecteurs sous les plats et les assiettes chaudes. La chaleur peut causer des changements chimiques qui peuvent créer des taches sur l'ameublement.

Autres conseils sur l'entretien du bois

Il est préférable de conserver votre ameublement dans un environnement dont le climat est contrôlé. Les changements de température et d'humidité peuvent causer une décoloration, un gauchissement, un rétrécissement et un fendillement du bois. Il est conseillé de garder l'ameublement éloigné des rayons directs du soleil puisque le soleil peut endommager son fini. Un nettoyage et un entretien approprié à domicile permettra d'allonger la durée de vie de votre achat. De suivre ces conseils importants et pratiques aidera votre ameublement à vieillir en beauté.

Un crayon à retouches est fourni pour réparer toute égratignure qui pourrait se produire lors de l'assemblage ou du transport. Nous vous souhaitons des années de plaisir avec l'utilisation de votre achat. Nous vous remercions pour votre achat!

CUIDADO / MANTENIMIENTO

Cuidado / Mantenimiento

- Use un paño suave y limpio que no raye la superficie cuando elimine el polvo.
- El uso de cera para muebles no es necesario. Si elige utilizar la cera, realice primero una prueba en un área discreta.
- Usar solventes de cualquier clase en sus muebles puede dañar el acabado.
- Nunca utilice agua para limpiar sus muebles, ya que puede causar daños en el acabado.
- Siempre utilice posavasos para colocar los vasos de bebidas y las macetas.
- Los derrames de líquidos se deben recoger inmediatamente, ya que pueden dañar el mueble. Use un paño suave y limpio y seque el derrame con cuidado. Evite frotar.
- Siempre utilice almohadillas protectoras debajo de los platos y vajillas calientes. El calor puede causar cambios químicos los cuales pueden crear manchas en los muebles.

Más consejos sobre el cuidado de los muebles de madera

Es mejor mantener sus muebles en un entorno climatizado. Los cambios en la temperatura y la humedad pueden desteñir, alabear, encoger y fragmentar la madera. Se recomienda mantener los muebles lejos de la luz directa del sol, pues el sol puede dañar el acabado. La limpieza y el cuidado adecuados en el hogar extenderán la vida útil de su compra. Al seguir estos consejos importantes y útiles mejorará sus muebles a medida que pasa el tiempo.

Se ha proporcionado un marcador corrector para reparar cualquier raya o rasguño pequeño que se pueda producir durante el montaje o el envío. Esperamos que disfrute su compra durante muchos años. ¡Gracias por su compra!
